## It Was Dark Over Westphalia

### Quick Take: Who's Not Participating in Cytodyn's Ridiculous Loserlimab Trial? (CYDY)

One thing that **The NaDDir\*** didn't address on last week's bizarre conference call by everyone's favorite reverse-merger pink sheet Coronacraper, **Cytodyn (CYDY)**, was the recruiting status of the much vaunted "CD12" study of **loserlimab** (<https://buyersstrike.wordpress.com/2020/08/28/but-teh-science-be-so-gud-part-1-a-brief-history-of-loserlimab-cydy/>) in severe-to-critical Covid-19 patients.

Recall that prestigious Ivy League university in Connecticut that was participating in the study (but never actually recruited a single patient?). Sure you do. Here's the [Clinicaltrials.gov](https://clinicaltrials.gov/ct2/history/NCT04347239?V_9=View#StudyPageTop) record of study locations as of mid-August ([https://clinicaltrials.gov/ct2/history/NCT04347239?V\\_9=View#StudyPageTop](https://clinicaltrials.gov/ct2/history/NCT04347239?V_9=View#StudyPageTop)):

#### Contacts/Locations

Central Contact: Kush Dhody, MBBS, MS, CCRA  
Telephone: 301-956-2536  
Email: kushd@amarexcro.com

#### Locations: United States, California

UCLA

[Recruiting]

Los Angeles, California, United States, 90095

Contact: Nancy Lopez 310-794-8043 NancyRLopez@mednet.ucla.edu

Principal Investigator: Otto Yang, MD

Eisenhower Health

[Not yet recruiting]

Rancho Mirage, California, United States, 92270

Principal Investigator: Shahriyar Tavakoli, MD

#### United States, Connecticut

Yale

[Not yet recruiting]

New Haven, Connecticut, United States, 06510

Principal Investigator: Onyema Ogbuagu, MD

On August 31st, the company quietly deleted Yale from the [trial location list](https://clinicaltrials.gov/ct2/show/NCT04347239) (<https://clinicaltrials.gov/ct2/show/NCT04347239>) (and it looks like Eisenhower Health in California dumped CYDY too).

## Locations

### United States, California

St. Jude Medical Center

### United States, Georgia

Center for Advanced Research & Education (CARE)

Recruiting

Gainesville, Georgia, United States, 30501

Contact: Julie Recknor 770-534-5154 [jrecknor@carega.net](mailto:jrecknor@carega.net)

Principal Investigator: Angela Ritter, MD

And speaking of trial sites, remember that press release back on **August 20th**, where **Cytodyn** claimed that they received authorization to enroll UK patients, **commencing immediately**, into its ongoing Covid-19 trial?

## After Several Months of Providing Requested Information About Manufacturing and Safety of Leronlimab, U.K.'s MHRA Accepts CytoDyn's Request to Enroll in its Current Phase 3 Trial for COVID-19 Patients with Severe-to-Critical Symptoms

August 20, 2020 4:51am EDT

 Download as PDF

### *Patient enrollment to commence immediately*

Go back and review the list of trial sites as of **August 31st**, available [here](https://clinicaltrials.gov/ct2/show/study/NCT04347239#contactlocation) (<https://clinicaltrials.gov/ct2/show/study/NCT04347239#contactlocation>). Interesting that there are **no UK sites listed**. Not one. On the conference call last week, **The NaDDir\*** did make some curious comments about UK trial enrollment:

09/02/2020 17:11:16[BT]

That takes us to CD12 trial. First, let me explain CD4 -- I'm sorry CD12 enrollment in UK. So I am ready now -- I'm going to read to you the email that the Regulatory Director at Amarex, Dr. Ahmed Bayat sent me in regards to that. This is what he said. "We received great news today. UK ethical committee approved CD12 study to be conducted in the UK. Now, the study can officially be initiated. Please also see our MHRA comments below". They have recommended, CytoDyn to resubmit the CytoDyn CD12 COVID-19 study to the urgent public health, UPH scheme. If UPH scheme

*"We received great news today. UK ethical committee approved CD12 study to be conducted in the UK. Now, the study can officially be initiated. Please also see our MHRA comments below". They have recommended, CytoDyn to resubmit the CytoDyn CD12 COVID-19 study to the urgent public health, UPH scheme."*

Was the company lying about being approved to begin recruiting UK patients in the [August 20th press release](https://www.cytodyn.com/newsroom/press-releases/detail/465/after-several-months-of-providing-requested-information) (<https://www.cytodyn.com/newsroom/press-releases/detail/465/after-several-months-of-providing-requested-information>)? It seems so. And exactly why did the company need to resubmit the study? Was it really because wink wink nudge nudge the UK health authorities love it so much? Or is it (much more likely given Cytodyn's history), because the original filing was deficient in some way? Or maybe the MHRA (like the FDA with Cytodyn's pathetic HIV BLA) just wanted a **Double Dose of The NaDDir's\*** sweet sweet regulatory filings?

LoserLimab!! Really!!!! Any single statement here about science? And about the PR statements done by CYDY, you will know that very shortly. Well, your article shows what character you have, hope you dont have to depend on this drug!!

[Oh yes, "teh science", you can read up on it [here](#). -- Editor]

Who is the author? I don't see any names. How can this information be trusted? I hope you don't get Covid-19 and die before you're able to reveal yourself.

[Well, you could start by clicking on all of the provided links that verify everything in the post. You do know how hyperlinks work, right? – Editor]

Any “news article” that has not one but two childish, name-calling examples in the OPENING PARAGRAPH is an article to be trusted... (where's that eye-roll emoji when I need it??) What an embarrassing attempt to cast doubt on a drug that has been proven to work time and time again. I would say that you should be ashamed of yourself but after reading your so-called 'article', it would appear that you wouldn't know shame if it walked up and bit you in the ass. I'm genuinely embarrassed for you.

[Weird that you keep reading and posting comments then. Of course you are commenting from Vancouver, WA, Cytoscam's home town. -- Editor]
