Quick Take: Who is Getting A Big Raise At Cytodyn Now? (CYDY)

Just a month after selling a multi-million dollar boatload (<https://buyersstrike.wordpress.com/2020/05/01/who-else-is-selling-stock-now-cydy/>) of stock, Coronacraper Cytodyn (CYDY) CEO Nader "The Nadir" Pourhassan just scored a massive raise.

After the bell last night, Cytodyn issued an 8k (see here (<https://content.equisolve.net/sec/0001193125-20-158615/d937275d8k.htm>)) disclosing an almost 100% increase in Nader's base compensation to \$1mm:

On May 27, 2020, the Compensation Committee of the Board set the annual base salaries for the Chief Executive Officer, Nader Pourhassan, Ph.D., at \$1,000,000 and Chief Financial Officer, Mr. Mulholland, at \$425,000, effective June 1, 2020.

He wasn't doing too badly in prior years either:

Career	Boards	Executive Compensation	
Company		Year	Salary
CYTODYN INC		2019	506,140
CYTODYN INC		2018	433,888
CYTODYN INC		2017	421,250
CYTODYN INC		2016	341,250
CYTODYN INC		2015	300,000

(<https://buyersstrike.wordpress.com/2020/06/03/quick-take-who-is-getting-a-big-raise-at-cytodyn-now-cydy/nadercomp/>).

Of course on his rambling call with stock promoter (<https://www.sec.gov/litigation/litreleases/lr15950.txt>) **Jacob Mestechkin** aka **Jack Marks** yesterday (<https://www.cytodyn.com/investors/news-events/ir-calendar/detail/3043/wall-street-reporters-next-super-stock-livestream>), this was never mentioned.

The big raise was voted on by a "compensation committee" that had a new director Mr. Patel that was just appointed to the board last month and was given a big mess of options, He coincidentally was named the head of the compensation committee two days before it voted to double the paycheck of the CEO who just hired him.

Correction: On May 27, 2020, the Board appointed Dr. Patel to the Board's Nominating and Governance Committee as its chair.

Yeah every single DR. That has used Leronlimab. Is a lying con artist and not to be believed. They would all risk their careers for Nader? You're an idiot.

[You are clearly unfamiliar with how clinical trials work. Doctors and hospitals are paid by the sponsor, in this case Cytodyn. They are not risking anything. – Editor]
